

We strongly recommend disabling or removing Grammarly for best performance with EvaluWise. Unfortunately it is known to cause problems and freezes when used with EvaluWise.

To remove an extension from Google Chrome:

1. If the extension has an icon in your Chrome toolbar, you can right-click on the icon.
2. Select **Remove from Chrome**.
3. A notice to remove the extension will appear. Click **Remove**.

or:

1. On your browser, click **menu** ☰.
2. Select **More tools > Extensions**.
3. On the extension you want to remove, click **Remove from Chrome** 🗑️.
4. A notice to remove the extension will appear. Click **Remove**.
